EUROPE.

**THE LONDON TIMES ON SPAIN.**  
LONDON, August 18.—The Times to-day has an article on the subject of affairs in Spain, suggested by the recent shooting by the government forces of nine Carlist prisoners. The Times says this news is hardly more cheerful than that to which Bravo accustomed us. Many people of Spain are confident that a continuation of the present government must lead to the ruin of the nation. If such is the end of Carlistism to regain power, we have no doubt that blood would be shed as wantonly and iniquitously to put Carlistism down as it has contributed to build it up.

**THE ROMAN CATHOLIC COUNCIL.**  
LONDON, August 18.—Rev. Dr. Cumming has written a letter to the Pope, asking leave to attend the Ecumenical Council, for the purpose of explaining the reasons for the separation of the Protestants from the Roman Catholic Church.

**TROUBLES IN SPAIN.**  
MADRID, August 18.—The Bishop of Jaén denies the jurisdiction of the present government, and appeals to the Holy See. Some bishops have obeyed the decree of the Regent obliging them to wear their clerical insignia in accordance. Others still maintain silence.

The Cortes has been summoned to meet on September 15th, in consequence of the urgency of affairs.

**THE CARLIST REVOLUTIONISTS.**  
PARIS, August 20.—The Paris asserts that the Carlist bands are increasing within Spain and have met with some success, capturing nine officers and forty privates of the Spanish army.

**MADRID, August 20.**—Forty-nine Carlists have been brought into Valencia's prisoners. Several Carlist bands have been dispersed by Spanish troops within two days.

**VIENNA, August 19.**—Baron von Beust replying to the Prussian Minister's note, insists that what he said in committee was private, and declines the discussion of questions originating from inaccurate newspaper statements.

**WASHINGTON NEWS.**  
WASHINGTON, August 20.—General Spinner makes an elaborate explanation of the San Francisco dispatches implicating Mr. Boutwell in favoritism or negligence. He declares that he has the entire control of the transfers between New York and San Francisco, and is alone responsible for the manner in which they are made. He explains the apparent irregularities by delays of telegrams and discrepancies in dates. Everybody trusts General Spinner implicitly.

Hereafter no squatter or citizen will be allowed to reside on the Military Reservations unless employed, and must go away when discharged by the government.

The President returns on Thursday for the Cabinet meeting of Friday.

Delano decides that taxes withheld from companies by corporations, cannot be charged to the shareholders. He also decides that the shareholders are liable for the same, even where the stock is made for playing, or subject to the stock tax.

Warrants have been issued for the arrest of the persons implicated in the Mable whiskey and tobacco frauds in the schooner Ann D. Case. Among the persons to be arrested is a rich Cincinnati.

**THE GETTYSBURG MEETING.**  
GETTYSBURG, August 20.—Numerous letters have been received from Southern generals accepting the cordial invitation to participate in the identification of the various points of the battle-field. Several express the fear that the occasion will revive the memory of former strife; but the majority take a different view, and think the history of the battle should be honestly and truthfully handed down to future generations.

**THE RIGHTS OF LABOR.**  
PHILADELPHIA, August 20.—The Labor Convention has adopted resolutions recommending Trades Unions to make an immediate effort to secure the thorough organization of female labor, and that for work equally well done, women be paid the same wages as men; also denouncing coercive labor, but declaring that voluntary Chinese immigration should be protected and encouraged. A special Committee on the New Political Party was appointed.

**FROM VIRGINIA.**  
RICHMOND, August 20.—This is the seventy-eighth day since there has been rain enough to wet the ground. The drought is so bad that even the forest trees are dying. The thermometer is at 101.

Mr. Gustavus A. Meyer, a prominent lawyer of this city, died to-day.

At a convention of the Southern planters held to-day at the White Sulphur Springs, speeches were made by W. T. Sutherland, of Virginia, Hon. Wm. C. Pennington, of D. C., Mr. Barringer, of North Carolina, General Law, of Georgia, and others. Mr. Sutherland said that in Virginia one-third crop of corn would be made and about half a crop of tobacco.

**THE WAR IN CUBA.**  
HAVANA, August 20.—Several insurgent camps have been dispersed in Cinco Villas district.

The Directors of the Havana Railroad have been removed for malversation.

**SPARKS FROM THE WIRES.**  
Queen Victoria has gone to Balmoral. Martin Billmeyer, confined in Williamsport for illicit distillation, shot his throat.

A band of Carlists, under Pado, have been dispersed at Ouidad Real, Spain. Pado was captured.

AFAIRS IN GREENVILLE.

MEN AND THINGS IN THE UP-COUNTRY.

**Proceedings of the United States District Court for the Western District of South Carolina—August Term, 1869.**

**GREENVILLE, S. C., Wednesday, August 18.**—Before giving the proceedings of the United States District Court, permit me to state that nothing has occurred during the session up to this date worthy of any special mention. No important cases have yet been reached, and of course no concomitant lengthy speeches. In yesterday's proceedings the trial of the case of Colonel W. H. G. Jett, on the charge of obstructing the revenue officers, elicited the most attention that has yet come up, although at the same time it did not occur to your correspondent that its interest exceeded local concern sufficiently to justify even a brief outline of it, notwithstanding some of our best lawyers were engaged on it. The readers of The News will be kept informed.

The presence of the officers of the court in our midst, together with those in attendance, gives life and activity to our little city. Judge Bryan and Mr. Horbeck and the other officials are staying at the Mansion House. Mr. Swandale has also other visitors, among whom is Governor A. Cumming, of Georgia, who is enquiring about summer here.

Our Peabody school opened on Monday last with two hundred and forty pupils, and will winter. As you have published the list of teachers, I will not give them here. We think a great deal of them, and last year's operations prove that they must be of vast benefit to the children growing up. One of the teachers informed me that she had counted over forty families residing in 1868, who had not these institutions been in existence, would not have been able to give their children any instruction.

The weather is hot and dry. In some portions of the county no rains have fallen of any consequence for eight or nine weeks. Corn will be very scarce indeed. But the Lord will provide.

**NINTH DAY'S PROCEEDINGS.**  
WEDNESDAY, August 19.—The court was opened at 10 o'clock, A. M. Hon. George S. Bryan, presiding.

**Ex parte J. C. Dezel.**—The jurists answered to their names as yesterday.

**DEATH OF AN OLD CITIZEN.**  
Dr. Bivins died at his home near Crawfordville, in South Carolina, on the 18th inst., in the 83rd year of his age.

He was a native of Virginia, and had resided in this State for several years, which rendered him unable to engage in the active duties of his profession. He was a member of the Board of Directors of the Bivinsville Manufacturing Company, in which capacity he acted for several years. After he withdrew from this company he resided at a cottage on Clinch Creek, a mile and a half from this place. This enterprise is abandoned, and erected the Crawfordville Cotton Factory on Tiger River, where he died. He did more for the poor than any other individual to build up and promote the manufacturing interests of the district.

**TAXES IN YORK.**  
The Yorkville Inquirer says: The work of collecting State and county taxes for York county, on, by a large proportion is yet unpaid. The total amount of taxation is \$24,280. Of this amount only \$22,827.04 has been paid up to and including the 18th instant. It is well to remember that the 18th instant is the limit during which the taxes can be paid without further expense. After that time, one cent, or one-tenth of one per cent, will positively be added to all taxes still to be collected.

The auditor has furnished us with a few interesting statistics from his books. Twelve hundred and thirty acres of land returned for taxation in 1868, and their assessed value is \$1,021,418. The assessed value of buildings not in towns is \$482,910. The assessed value of buildings in towns, including Yorkville, Rock Hill, Fort Mill and Ebenezer, is \$448,443. The assessed value of personal property is \$1,123,390, and the total assessed value of the county is \$2,653,761.

accounted for; that all the policies issued except two, were paid for according to the printed rates of the company, (the two policies referred to were issued by mistake, caused by misrepresentation, which policies, however, will not be renewed); that in no respect has the Association violated their contract with the policy-holders; that far from finding anything to censure or condemn, we can with full confidence recommend this institution to the favorable considerations of our citizens, and endorse the working and management of the company by its present able board of officers.

We refer to the following reports of the committee on investigation, as embodying the whole affairs of the company.

**TAX ON BANKERS AND BROKERS.**  
It was stated some weeks ago that the New York brokers who had been assessed for a heavy tax on their dealings in stock, &c., had brought the matter before the Commissioner of Internal Revenue, and employed able counsel to argue the questions involved. On Tuesday Commissioner Delano decided that the brokers should be taxed. The result is of great interest to business men in New York, and greatly concerns the general public, since the Commissioner's decision brings to the Treasury about \$100,000 per week from sources which never paid the tax before. The decision is in the cases of Wood & Reich, et al., claiming to be brokers, and not bankers, and concludes as follows:

It is claimed that Congress has conceded that persons who conduct the transaction of sale by receiving and delivering stock are still only brokers. Such an argument is inapplicable to this question, until it is shown how Congress speaks of persons who are not brokers, but who are engaged in the sale of stock. It is not every person who makes it his vocation to effect such sales. This section speaks of contracts for sales, not of contracts for delivery of stock. **Obituary.**  
McNAMEE—Died, in Charleston, on the 4th August, 1869, LEONARD JAMES McNAMEE, aged thirty-eight years. Beloved and esteemed by his relatives for his gentle deportment and amiable disposition, his memory is fondly treasured by his friends, and he has gone down to the grave mourned and regretted by all who knew him. Exposure and long imprisonment during the late war undermined his constitution, and he returned in broken health to his home in the home of his childhood. The true soldier, the kind brother and the faithful son requires no eulogy.

PAINTLESS DIGESTION.—"NO MAN," says Mr. Ayler Cooper, "ought to know by his sensations that he has a stomach." In other words, when digestion is perfect there is neither pain nor uneasiness in the region where it takes place. Nature has a perfect, healthy, and efficient system, and the stomach is the most important organ of the human system. It is the seat of the digestive process, and its health is essential to the health of the whole body.
